Experience

➤ Front End Web Developer

November 2023 - Present | Signed Web Solutions | Esposende, Portugal

In my current role, I specialize in developing a wide range of digital solutions, including e-commerce websites, corporate websites, landing pages, customer portals, and multi-step forms. I have contributed to projects for notable clients such as Gold Energy, Ynerluz, Sonorgas, Prio, Suzuki, and Moteo. Working collaboratively with project managers, designers, and developers, I ensure high-quality, user-focused results tailored to each client's unique needs. My work emphasizes clean design, seamless functionality, and optimal user experience.

➤ Freelance Front End Developer

June 2022 - Present | Freelancing | Part-time

Proven track record of designing and developing visually appealing, user-friendly web applications and e-commerce platforms for small to medium-sized businesses. Skilled in crafting tailored strategies to enhance online presence and improve client outcomes. Strong communicator and collaborator, dedicated to delivering innovative, results-driven solutions.

➤ Critical Care Nurse

Oct 2015 - Oct 2022 | Royal Free Hospital NHS Foundation Trust | London, UK

Critical Care Nurse with 7 years of experience delivering high-quality patient care in fast-paced, high-pressure environments. Proficient in managing critical care equipment to ensure patient stability and recovery. Adept at monitoring respiratory status and ventilator operation, making critical adjustments as needed. Dedicated to fostering positive health outcomes and maintaining top-notch patient care standards.

Education

➤ Full Stack Web Development

Dec 2021 - Present | freeCodeCamp and 100 Devs Agency - Remote

Acquired practical Full Stack Software Development experience through hands-on collaboration with experienced developers on real-world projects at a dedicated agency, gaining exposure to the full software development life cycle and paid client work. Achieved recognition with certifications in Responsive Web Design and JavaScript Algorithms and Data Structures, showcasing expertise through project completion. Committed to continuous learning, expanding into Back-End Development, and progressing toward full-stack proficiency.

➤ Bachelor Degree in Nursing

Sep 2011 - Jul 2015 | ESSVA - V. N. Famalicão, Portugal

Earned a Bachelor's degree in Nursing through a comprehensive educational program that included both theoretical and practical instruction. Clinical practices were integral to the curriculum, with students gaining hands-on experience through participation in the Erasmus Program, including rotations at various hospitals in different cities and countries. The 4-year program provided a strong foundation in the field of nursing and prepared the individual for professional practice.
